Workersbee Product Brochure

Milestone

Certifications

Workersbee® has been granted a number of invention patents, utility model patents and design patents, and has registered trademarks in China, Europe, North America, among other regions.

The company has passed IATF16949 and ISO9001 quality management system certifications. It has also passed authoritative certifications for its products, including CE, TUV, RoHS, CB, UKCA, UL, etc.

Invention Patent Certification **60+**

Certification of Outstanding Brand Achievement **100+**

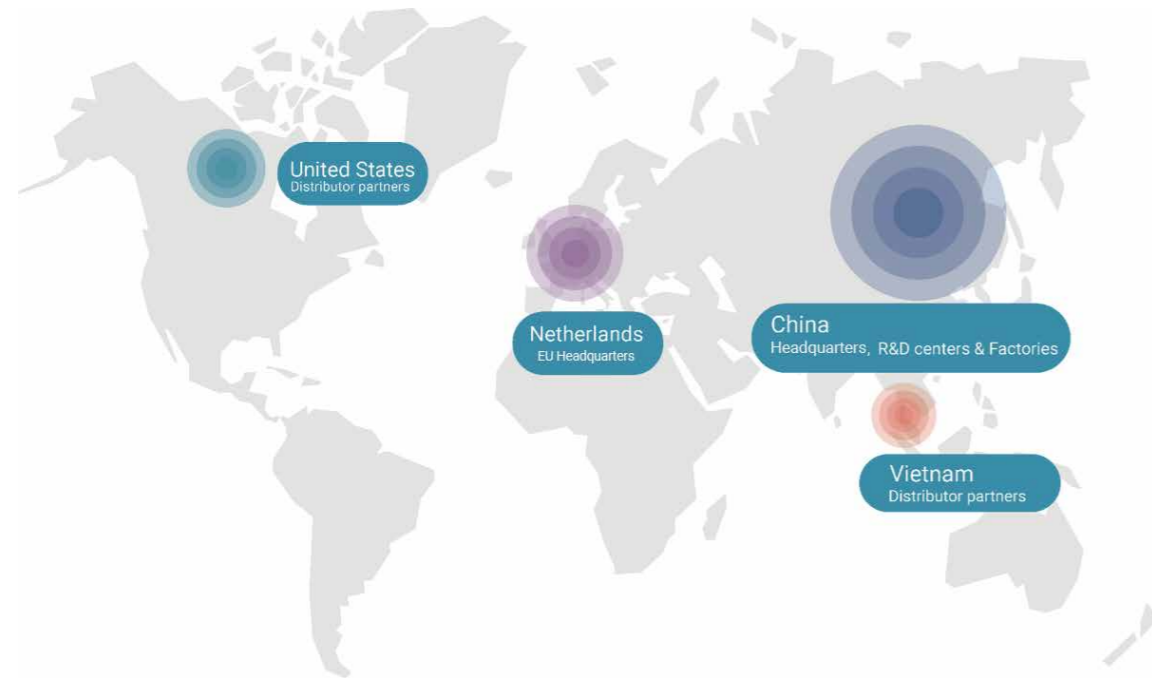

Software Copyright Certification **40+**

TUV/UL/CE and other Product Certificates **200+**

Our Markets

Our Advantages

- Innovation Driven by Integrated R&D, Production, and Quality Excellence;
- Trusted Partner for Leading OEMs;
- Alibaba Global Premium Merchant;
- Co-Founded by Dr. Yang Tao, a renowned expert in electrical power engineering;
- Extensive international sales experience, driving growth through innovative brand and channel strategies.

Portable EV Charger (Soapbox A)

© This portable EV charger can have a GB/T and Type 2 plug for EV charging.

This charger's max current is 16A and its max power is 3.6kW. The applicable voltage is 110-250V. It is designed to guard against charging risks like over-current, over-voltage, under-voltage, current leakage and over-heat to ensure safe EV charging. IP66 waterproof, it's safe to charge outdoor. Made of high-strength materials, this charger is designed to serve many years' use.

Note: Available with your logo on request.

Product Parameters

	Type 2	GB/T
Rated Current	16A (6A / 8A / 10A / 13A / 16A)	
Output Power	≤ 3.6kW	
Operating Voltage	220V/230V	
Operating Temperature	-30°C-+50°C	
Rolling Strength	Resistant to 1.5 ton vehicle crushing	
Protection Rating	IP66 (Control box)	
Terminal Material	Copper alloy, silver plated	
Plug Shell	Thermoplastics	
Cable Material	TPU	TPE / TPU
Cable Length	5m(Customisable)	
Net Weight	2.0 kg	
Warranty	24 Months	
Certification	CE / TUV / UKCA	/

Portable EV Charger (Soapbox B)

- Intelligent dual temperature control and Bluetooth App connectivity. Compact and classic style, a highly convenient and practical product

This series of products includes GB and Type 2 products. The maximum current is 16A, the maximum power is 3.6kW, and the applicable voltage range is 110-250V. The product is made of high strength materials. To ensure the safest possible charging for your vehicle, our chargers have a series of safety protection measures. These protection measures include overcurrent detection, overvoltage detection, undervoltage detection, leakage detection, overheating detection. The product is IP66 waterproof compliant.

Note: Available with your logo on request.

Product Parameters

	Type 2	GB/T
Rated Current	16A (6A / 8A / 10A / 13A / 16A)	
Output Power	≤ 3.6kW	
Operating Voltage	220V/230V	
Operating Temperature	-30°C+50°C	
Rolling Strength	Resistant to 1.5 ton vehicle crushing	
Protection Rating	IP66 (Control box)	
Terminal Material	Copper alloy, silver plated	
Plug Shell	Thermoplastics	
Cable Material	TPU	TPE / TPU
Cable Length	5m(Customisable)	
Net Weight	2.0 kg	
Warranty	24 Months	
Certification	CE / TUV / UKCA	/

Portable EV Charger (Soapbox C)

© Application scenarios: villas, underground garages, ground parking spaces and any other places where there is a home socket inlet.

It is designed to guard against charging risks like over-current, over-voltage, under-voltage, current leakage and over-heat to ensure safe ev charging.

This product also supports the following features: Bluetooth and mini program connection, appointable charging, OTA upgrade, double temperature control protection from power plug and controller, grounding abnormality reminder, IP66 protection, it's safe to charge outdoor. Made of high-strength materials, this charger is designed to serve many years' use.

Note: Available with your logo on request.

Product Parameters

	Type 2	GB/T
Rated Current	16A (6A / 8A / 10A / 13A / 16A)	
Output Power	≤ 3.6kW	
Operating Voltage	230V	
Operating Temperature	-30°C~+50°C	
Rolling Strength	Resistant to 1.5 ton vehicle crushing	
Protection Rating	IP66 (Control box)	
Terminal Material	Copper alloy, silver plated	
Plug Shell	Thermoplastics	
Cable Material	TPU	TPE / TPU
Cable Length	5m(Customisable)	
Net Weight	2.0 kg	
Warranty	24 Months	
Certification	CE / TUV / UKCA	/

Portable EV Charger (Flex Charger)

© Intelligent temperature control, adjustable current, safe and convenient

There are three types of products in this series: GB, Type 2 and Type 1. To ensure the safest possible charging for your vehicle, the product has a series of safety protection measures. These safety measures include overcurrent detection, overvoltage detection, undervoltage detection, leakage detection, and overheating detection. The product is also water-proof. Leakage protection is available in the following two specifications: 30mA AC and 30mA AC+6mA DC

Note: Available with your logo on request.

Product Parameters

	Type 1	Type 2	GB/T
Rated Current	16A (6A / 8A / 10A / 13A / 16A)		
Rated Current	32A (10A / 16A / 20A / 24A / 32A)		
Output Power	3.6kW/7.4kW		
Operating Voltage	120/240V		
Operating Temperature	-25°C~+50°C		
Rolling Strength	Resistant to 1.5 ton vehicle crushing		
Protection Rating	IP67 (Control box)		
Terminal Material	Copper alloy, silver plated		
Casing Material	Thermoplastics		
Cable Material	TPE	TPU	TPE / TPU
Cable Length	5m(Customisable)		
Net Weight	2.0~3.0kg		
Working Altitude	≤2000m		
Warranty	24 Months		
Screen	1.8 inches		
Certification	ETL	CE / TUV / UKCA / CB	/

Portable EV Charger (Flex Charger 2)

© Intelligent dual temperature control, 2.0 inch LCD screen, Bluetooth app connectivity, OTA remote upgrade, 10388C PU Spraying paint, touch key-press, Tesla one click open cover and lighting (only for type2 selective), fashionable and cool appearance.

This series of products include: GB/T, Type1 and Type 2. To ensure the safest possible charging for your vehicle, the product has a series of safety protection measures. These safety measures include overcurrent detection, overvoltage detection, undervoltage detection, leakage detection, and overheating detection. The product is also waterproof. Leakage protection is available in the following two specifications: 30mAAC and 30mAAC+6mADC.

Note: Available with your logo on request.

Product Parameters

	Type 1	Type 2	GB/T
Rated Current	16A (6A / 8A / 10A / 13A / 16A)		
Rated Current	32A (10A / 16A / 20A / 24A / 32A)		
Rated Current	40A (16A / 20A / 24A / 32A / 40A)	/	/
Output Power	3.6kW/7.4kW		
Operating Voltage	120/240V	230V	220V
Operating Temperature	-25°C~+50°C		
Rolling Strength	Resistant to 1.5 ton vehicle crushing		
Protection Rating	IP67 (Control box)		
Terminal Material	Copper alloy, silver plated		
Casing Material	Thermoplastics		
Cable Material	TPE	TPU	TPE / TPU
Cable Length	5m(Customisable)		
Net Weight	2.5~3.5kg		
Working Altitude	≤2000m		
Warranty	24 Months		
Screen	2.0 inches		
Certification	ETL	CE / TUV / UKCA / CB	/

Portable EV Charger (ePort A)

© Intelligent dual temperature control, 2.0 inch LCD screen, Bluetooth app connectivity, OTA remote upgrade, touch key-press, optional technical grey and black housing, fashionable appearance.

There is only one type of product in this series: Type 2. To ensure the safest possible charging for your vehicle, the product has a series of safety protection measures. These safety measures include overcurrent detection, overvoltage detection, undervoltage detection, leakage detection, and overheating detection. The product is also waterproof. Leakage protection is available in the following two specifications: 30mA AC and 30mA AC+6mA DC.

Note: Available with your logo on request.

Product Parameters

 Type 2	
Rated Current	16A (6A / 8A / 10A / 13A / 16A)
Rated Current	32A (10A / 16A / 20A / 24A / 32A)
Output Power	3.6kW/7.4kW
Operating Voltage	230V
Operating Temperature	-25°C~+50°C
Rolling Strength	Resistant to 1.5 ton vehicle crushing
Protection Rating	IP67
Terminal Material	Copper alloy, silver plated
Casing Material	TThermoplastics
Cable Material	TPU
Cable Length	5m(Customisable)
Net Weight	2.0~3.0kg
Warranty	24 Months
Screen	2.0 inches
Certification	CE / TUV / UKCA / CB
UV Resistant	Yes

Portable EV Charger (ePort B)

© Intelligent dual temperature control, 2.0 inch LCD screen, Bluetooth app connectivity, OTA remote upgrade, touch key-press, touch key-press, optional technical grey and black housing, fashionable and cool appearance.

There is only one type of product in this series: Type 2. To ensure the safest possible charging for your vehicle, the product has a series of safety protection measures. These safety measures include overcurrent detection, overvoltage detection, undervoltage detection, leakage detection, and overheating detection. The product is also waterproof. Leakage protection is available in the following two specifications: 30mA AC and 30mA AC+6mA DC.

Note: Available with your logo on request.

Product Parameters

Type 2	
Rated Current	16A (6A / 8A / 10A / 13A / 16A)
Rated Current	32A (10A / 16A / 20A / 24A / 32A)
Output Power	3.6kW/7.4kW
Operating Voltage	230V
Operating Temperature	-25°C~+50°C
Rolling Strength	Resistant to 1.5 ton vehicle crushing
Protection Rating	IP67
Terminal Material	Copper alloy, silver plated
Casing Material	Thermoplasticsl
Cable Material	TPU
Cable Length	5m(Customisable)
Net Weight	2.0~3.0kg
Warranty	24 Months
Screen	2.0 inches
Certification	CE / TUV / UKCA / CB
UV Resistant	Yes

Portable EV Charger (ePort C 3P)

© Intelligent temperature control, 2.0 inch LCD screen, touch key-press, technical black housing, fashionable appearance.

There is only one type of product in this series: Type 2. To ensure the safest possible charging for your vehicle, the product has a series of safety protection measures. These safety measures include overcurrent detection, overvoltage detection, undervoltage detection, leakage detection, and overheating detection. The product is also waterproof. Leakage protection is available in the following two specifications: 30mA AC+6mA DC.

Note: Available with your logo on request.

Product Parameters

 Type 2	
Rated Current	16A (6A / 8A / 10A / 13A / 16A Fixed Current)
Rated Current	32A (10A / 16A / 20A / 24A / 32A Fixed Current)
Output Power	11kW/22kW
Operating Voltage	400V
Operating Temperature	-25°C~+50°C
Rolling Strength	Resistant to 1.5 ton vehicle crushing
Protection Rating	IP67
Terminal Material	Copper alloy, silver plated
Casing Material	Thermoplastics
Cable Material	TPU
Cable Length	5m(Customisable)
Net Weight	3.5~4.2kg
UV Resistant	Yes
Warranty	24 Months
Screen	1.8 inches
Certification	CE
Optional Plug Types	CEE / Black

Type 2 EV Charging Cable Gen. 1.0

© Classic style, always in stock and always in demand

Silver-plated pins on the surface of copper alloy with a thermoplastic top. The charger is easy to insert and withdraw, featuring an ergonomic design with a comfortable grip. Supports vehicle electronic lock functions. The European standard version of this product has single-phase and three-phase options.

Note: Available with your logo on request.

Product Parameters

	Single Phase	Three phase
16A Cable Specification	3x2.5+1x0.5	5x2.5+1x0.5
32A Cable Specification	3x6+1x0.5	5x6+1x0.5
16A Cable Outer Diameter	11.7mm	13.5mm
32A Cable Outer Diameter	13.5mm	16.8mm
Operating Voltage	250V / 480V	
Operating Temperature	-30°C-+50°C	
Anti-collision	Yes	
UV Resistant	Yes	
Casing Protection Rating	IP55	
Certification	TUV / CE / UKCA / CB	
Terminal Material	Copper alloy, silver plated	
Casing Material	Thermoplastics	
Cable Material	TPE/TPU	
Cable Length	5m(Customisable)	
Cable Colour	Black, Orange, Green	
Warranty	24 Months	

Type 2 EV Charging Cable Gen. 2.1

© Terminal coating, modular design, automated production, extremely cost effective

Silver-plated pins on the surface of copper alloy with a thermoplastic top. The charger is easy to insert and withdraw, featuring an ergonomic design with a comfortable grip. This product supports vehicle electronic lock functions. The European standard version of this product has single-phase and three-phase options.

Note: Available with your logo on request.

Product Parameters

	Single Phase	Three phase
16A Cable Specification	3x2.5+1x0.5	5x2.5+1x0.5
32A Cable Specification	3x6+1x0.5	5x6+1x0.5
16A Cable Outer Diameter	11.7mm	13.5mm
32A Cable Outer Diameter	13.5mm	16.8mm
Operating Voltage	250V / 480V	
Operating Temperature	-30°C-+50°C	
Anti-collision	Yes	
UV Resistant	Yes	
Casing Protection Rating	IP55	
Certification	TUV / CE / UKCA / CB	
Terminal Material	Copper alloy, silver plated	
Casing Material	Thermoplastics	
Cable Material	TPU	
Cable Length	5m(Customisable)	
Cable Colour	Black, Orange, Green	
Warranty	24 Months	

Type 2 EV Charging Cable Gen. 2.3

© Terminal coating, modular design, automated production, extremely cost effective

Silver-plated pins on the surface of copper alloy with a thermoplastic top. The charger is easy to insert and withdraw, featuring an ergonomic design with a comfortable grip. This product supports vehicle electronic lock functions. The European standard version of this product has single-phase and three-phase options.

Note: Available with your logo on request.

Product Parameters

	Single Phase	Three phase
16A Cable Specification	3x2.5+1x0.5	5x2.5+1x0.5
32A Cable Specification	3x6+1x0.5	5x6+1x0.5
16A Cable Outer Diameter	11.7mm	13.5mm
32A Cable Outer Diameter	13.5mm	16.8mm
Operating Voltage	250V / 480V	
Operating Temperature	-30°C-+50°C	
Anti-collision	Yes	
UV Resistant	Yes	
Casing Protection Rating	IP55	
Certification	TUV / CE / UKCA / CB	
Terminal Material	Copper alloy, silver plated	
Casing Material	Thermoplastics	
Cable Material	TPU	
Cable Length	5m(Customisable)	
Cable Colour	Black, Orange, Green	
Warranty	24 Months	

Other EV Charging Cable
