

Portable Charger - ePort C

11kW/22kW Smart Charging

High power and fast charging, suitable for use in environments without charging piles.

Features

Robust Protection

With excellent dustproof and waterproof rating, it can effectively withstand the corrosive effects of rain, snow, and dust. This ensures that even on stormy days, you can use it with peace of mind.

Flexible Premium Cable

The integrated charging cable retains flexibility even in harsh cold weather.

High-Power Capability

The charging speed is rapid, allowing for charging power up to 22kW, which is 2~3 times higher than that of ordinary mode 2 chargers.

Durable Charging Solution

Designed to withstand extreme conditions, the EV charger boasts a robust construction of IP67 Rating protection.

Reservation Charging

Support for scheduled charging enables you to set a specific time to start charging, taking advantage of the lowest electricity prices and saving money.

Technical Data

	Main Product	11kW	22kW
General	Dimensions (mm)	L260 x W93 x D58	
	Weight	3.5kg	4.2kg
	Cable Diameter	13.5mm	16.8mm
	Cable Length	5m or customized	
	Operating Temperature	-25°C to +55°C	
	Storage Temperature	-40°C to +80°C	
	Material Charging Unit	PC	
	Certifications	CE	
Charging	Charging Power	11kW	22kW
	Charging Current	16A AC (three-phase)	32A AC (three-phase)
	Current Adjustable Range	6A/8A/10A/13A/16A	10A/16A/20A/24A/32A
	Voltage	380V AC (three-phase)	
	Connector Type	Type 2	
	Charging Plug	CEE (three-phase 16A)	CEE (three-phase 32A)
Interface	Charging Status	Screen & LED	
Safety and Protection	Upstream RCD	Type A+6mA DC	
	IP Rating	IP67	
	IK Grade	IK05	
	Fire Classification	UL94-V0	
	Temperature Monitoring	Box	
	Standard	EN 62752: 2016+A1 IEC 61851	
	Warranty	2 years	

Note: DO NOT use for daily charging, and MUST follow local regulations to adjust charging current.
